

EXCLUSIVE: Poll Watcher in Michigan Kicked Out of Detroit Hall But Not Before They Obtained Evidence of Potential Fraud

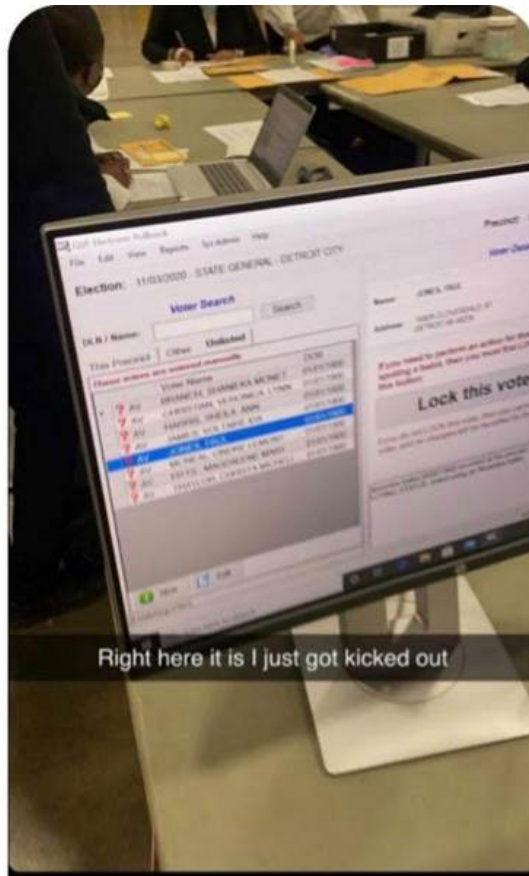

By SGT - November 6, 2020

by Jim Hoft, *The Gateway Pundit*:

A poll watcher in Michigan was kicked out of the hall where ballots are being counted from the 2020 election. Before leaving the hall the poll watcher obtained a screen print identifying potential voter fraud.

One poll worker was expelled from the TCF Center where Wayne County/Detroit ballots are being counted, when they caught this snap:

You can read seven out of eight voter names listed on the screen image below – all their birthdays showed as January 1, 1900.

Shanieka Monet Branch

Veronica Lynn Christian

Sheila Ann Harris

Voltaire Ida James

Paul Jones

Ondre Lemont Mcneal

Magdalene Mary Pitts

What's interesting is that all these people exist, but with different birth years and none of them appear to be regular voters.

The public QVF (Qualified Voter) system doesn't give a birthday, just a birth year.

The birth year in the public QVF shows one individual noted above as being born in 1988 and lives in Detroit. It also shows that as of November 2nd, this individual did not request an AV ballot.

Another individual lives in Detroit and was born in 1967.

There are eight records for one individual in the state, three in Detroit, born in 1954, 1963, and 1965.

Another was born in 1961 and lives in Detroit City and voted absentee on October 23rd.

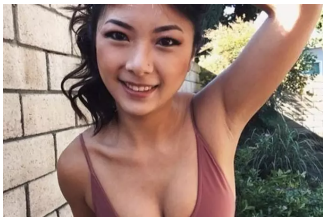

There are two individuals with a common name who live in Detroit, interestingly they live at the same address. One was born in 1966 and the other in 1944. One of these individuals has never voted before, and the other one only voted in 2012. This year, one of those individuals requested an absentee ballot but did not return it as of November 2nd.

Another individual listed above was born in 1979 and did not receive an absentee ballot as of November 2nd even though this individual requested one and has never voted in his life.
